- 2015 IBC § 3006, § 3007, § 3008
- 2018 IBC § 3006, § 3007, § 3008
- NFPA 105

Fire rating: **1 hour - 1700°F**

Certifications & Compliance

- Deploys on general fire alarm
- Deploys with loss of power
- Works with smoke detector

Deploys on

- Deploys on general fire alarm
- Deploys with loss of power
- Works with smoke detector

120V AC, 0.67Amps per motor and include a 48V DC junction box for connection to curtain motor.

Power Supply

120V AC/60 Hz
24V DC integrated in the housing

External Egress Switch

- Flush mounted Emergency switch located on the interior jamb
- By pushing the Egress Switch, the curtain raises fully to its rest position.

Egress Switch

Integrated Egress Switch

- Buttons are located on both sides of the screen.
- The Interior egress switch enables occupants to exit from the elevator.
- The curtain will then redeploy after egress.

SMOKE CURTAIN GX

Tested by UL in accordance with **UL 1784**

Control unit is tested according to **UL 864**

System Complies with:

- 2009 IBC § 708.14.1
- 2012 IBC § 713.14.1
- 2015 IBC § 3006.1, § 3008
- 2018 IBC § 3006.1, § 3008
- NFPA 105
- ASTM E84 (CAN/ULC-S102)
- CA Listing **OPM-0371-13**
- Intertek Compliance Report **ICCRR-1059**

Temperature resistance: **649°F**
